PROFILE SUMMARY

Immediate Joiner
I am a dedicated React Js Developer with 1.3 years of hands-on experience as freelancer , developing, and deploying web applications.
Proficient in both front-end technologies, I have strong expertise in React.js for crafting dynamic and responsive user interfaces.
My experience includes working with state management such as Redux and Redux toolkit for efficient data management.

I have successfully developed and implemented features like user authentication , RESTful APIs, and real-time data synchronization in various projects.

I am adept at using modern development tools and practices, including version control with Git, state management with Redux, and responsive design principles.
